

Welcome

X Minority Ads & Marketing Service

Ladies and Gentlemen

You can see from our website; we are a news and investigative journalism agency with projects spanning more than 100 sectors.

This has opened the door for us to become a pioneer in marketing services.

Thanks to our direct relationships with sources and audiences, we have a dedicated team specializing in communications and negotiations.

We do not rely on traditional advertising methods, such as click-through advertising, as we consider them incomplete and ineffective. They may waste money and fail to achieve the desired profit goals.

Despite the importance of advertising and ad distribution, we consider it merely a step in the marketing process.

That's why we've created comprehensive packages with integrated strategies.

Our packages are:

B2B: This package markets projects, businesses, or productions, attracting partners, investors, and collaborators.

B2C: This package connects customers directly to the product or service, without intermediaries or commissions.

Costs: When comparing the costs and outcomes of traditional advertising with our packages, it's clear that budgets are often wasted on ad distribution without a comprehensive strategy.

Feel free to contact us.

“We are legally registered in Sweden as a European News, Ads, and Marketing Agency.”

Please Note:

For your safety, to protect against fraud, and to ensure your privacy, please use the form below to contact us. We will respond and arrange a meeting.

Sincerely

Department of Ads & Marketing Service
